

# LİF TUTUCU MENFEZLER

## Lif Tutucu Menfezler / Fiber Filter Grilles

### LFM-W3

Lif tutucu menfezler havalandırma sistemlerinde emiş menfezi olarak kullanılırlar ve ortamdan emilen hava içerisinde bulunan istenmeyen partiküllerin tutulmasını sağlarlar.

*Fiber filters grilles are used as an absorber grille in ventilation systems. They are designed for keeping particles in the absorbed air.*

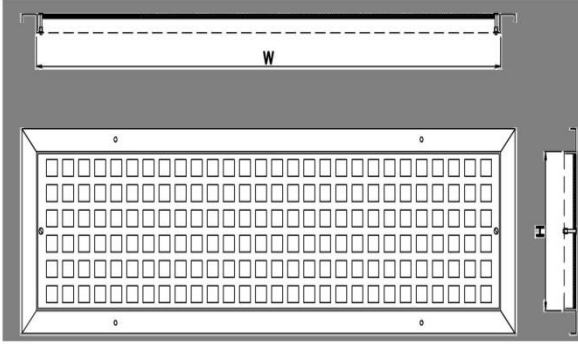

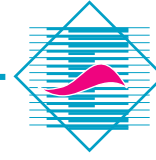

Bunun yanı sıra, havada uçuşan parçacıkların hava kanallarına girip birikmesini ve cihazlara ulaşip zarar vermesini engellerler. Kullanılan malzeme AISI 304 paslamaz çeliktir.

*They stop these particles from entering the cool building up and cause harm by reaching the equipment. The material used in AISI 304 stainless steel.*

Ameliyathaneler, temiz odalar ve tekstil sektöründeki hijyenik ortamlarda kullanılırlar. Vidalı kulp sayesinde filtresi kolayca demonte edilebilir ve temizlenir.

*They are usually used in surgery rooms and textile factories. The filters are easily dismantled and cleaned thanks to their screwed handle.*

Not: İstenilen ölçülerde üretim yapılır

### Standart Ölçüler / Standart Size

W(mm)	225 325 425 525 625 825
H (mm)	125 225 325 425

Note: Different sizes can be produced your demand.

### Seçim Tablosu / Selection Table

W	H	125	225	325	425
225	180	325	510	665	
325	260	470	750	980	
425	370	670	990	1295	
525	450	810	1240	1620	
625	535	960	1500	1690	
725	620	1115	1740	2275	
825	705	1270	1980	2590
